

### Name

Frost Aluminium Cold Roof drain assembly - fixed dome 220mm circular, medium sump body with clamp, vertical threaded outlet 4" BSP

### Code

34.0034

### Description

Frost Cold Roof drain assembly, fixed dome 220mm circular, medium sump body with clamp, vertical threaded outlet size 4" BSP.

Supplied with grating and clamp.

Domed rainwater outlets are suited to cold roof construction where the waterproof membrane is located on top of the roof deck.

Aluminium LM 6 to BS EN 1599-4:1999

### Body Material

ALUMINIUM

### Body Type

N/A

### Grating Material

PVC

### Flow Rate

10.70

### Outlet Type

THREADED

### Grating Type

DOMED

### Load Rating

N/A

### Threaded Joint Instructions

Apply Low Modulus Silicone to the thread of the pipe spigot & female thread within the roof outlet body. Using a flat spreading utensil, evenly spread the silicone into the threaded grooves. Insert the male into the female thread of the roof outlet body then carefully turn clockwise ensuring the thread is not "cross threading". Once fully tightened clean off excess silicone to both ends of the threaded connection.
